

If I ask  
**FUTA-Q**,  
will it work  
out?

If you have a problem about **MATERIAL** and **PRECISION PROCESSING**,

**FUTA-Q's proposal ability  
solves your problem!**

3D CAD data for a new part is  
now ready. But how can I  
manufacture this?

The Deadline is  
approaching...

I got it!  
At this kind of  
time...

We can give advice by  
e-mail and telephone.

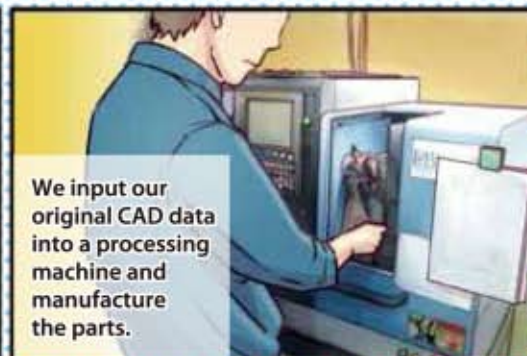

The only thing you need to do is  
to send us CAD data by e-mail.

We create parts drawings based on  
the received CAD data taking into  
account manufacturing process

We input our  
original CAD data  
into a processing  
machine and  
manufacture  
the parts.

Our philosophy is...

$4M + S = 29$

Man  
Material  
Machine  
Method

+

Skill

The combination of  
these four elements  
build up our skill.

We will  
continue  
developing  
the most  
up-to-date  
technology in  
micro and  
precision  
machining.

Yes, we made it!

Thanks to you,  
it met the delivery time!

Thank you,  
FUTA-Q!
